5. **Public participation.**

Mrs Smith and Ms James requested an update on the proposal in the Draft Local Plan to designate Abington Woods and the meadow at Bancroft Farm as Local Green Spaces. The chairman set out the position. The Draft Local Plan is being reviewed by planning inspectors. Local Green Space is a new designation and the principles are still being tested. Following a hearing in January when several of the proposed LGS sites were considered the inspector wrote to SCDC directing the proposals to be reconsidered. Some need to be strengthened or the sites might be better considered as Protected Village Amenities. This includes the Meadow at Bancroft Farm. There is clear evidence that the site has been regarded as a local village amenity by the community. Residents have had access to the meadow without challenge for many years and trees were planted there by members of the community with the permission of the landowner. It was also noted that at least one tree has a TPO. PB felt that the Bowling Green and Abington Woods were at less risk of being challenged because the landowners were supportive of maintaining them as green spaces.

Next steps were discussed. There will be an update in the Abington and Hildersham news and more detailed information will be published on the Abingtons website and Facebook page. **CLERK** to write to South Cambs to request details of the process and opportunities for the parish council and for the public to be involved.

The Chairman congratulated Ms James on her Local Community Hero Award. She said the work at Abington Woods was gathering pace; local schools are taking part in forest

sessions and interest is building up. The opportunity for local residents to visit and explore the site to see progress at open events was discussed.

Mrs Smith and Ms James left the meeting.

### 6.2 Payments

The damage to the bus shelter on the A1307 is more substantial than first thought. PB will provide some pictures and the Clerk will take advice from Queensbury and contact the insurance company. There were some minor concerns about safety of the structure. *[Post-meeting note: the Queensbury surveyor confirmed that the shelter was stable and was safe for continued use.]*

The Parish Council was grateful for Mr Fordham for his prompt action in removing two fallen trees following Storm Doris.

With the exception of the cost of bus shelter repair, Mr Ellis proposed payment of all items on the agenda, Mrs Scoffings seconded and this was unanimously agreed.

Rubbish is collected the next day and any bins that have not been emptied should be left outside properties until collection is done.
- **A1307 LLF** The City Deal Executive Board met on 8 March. They decided to hold workshops involving the Local Liaison Forum to consider the options set out in the agenda papers and other proposals before a further round of consultations starts in September. Householders also need to understand their responsibilities to maintain their trees. This includes insurance and duty of care under the Occupiers Liability Act 1957 and

1984 and the Health and Safety At Work Act 1974. It would be helpful for LAPC to know the ownership where this is not obvious.

**12.5 A1307 Committee.** The group continues to meet. Notes of the last meeting to follow.

**Meeting with Anglia Water (AW) following the river pollution in December.**

Although it was an authorised disposal, it had caused alarm. AW has changed its policy to ensure such waste would go to a main station in future. They will provide signs advising what to do in the event of a pollution incident. They are retraining staff who work on the hotline.
