

Ag11 South East Cambridge transport study consultation

Dear Stakeholder,

Cambridge South East Transport study consultation

The Greater Cambridge Partnership has launched the consultation on the Cambridge South East Transport study today.

The project aims to deliver new public transport links, new and improved walking and cycling routes and road safety improvements. More information on the proposals and to have your say, please go to:

www.greatercambridge.org.uk/CambridgeSouthEast

The consultation runs from Friday, 9 February to Tuesday, 3 April 2018. Leaflets will be distributed throughout the area. The consultation is being widely publicised via advertising, press releases to local media as well as posters in the city centre. Extensive promotion is planned via social media and information is available online at www.greatercambridge.org.uk/CambridgeSouthEast. There is also the opportunity to fill out a survey online or on paper.

A range of local exhibitions are planned where members of the public will be able to discuss the options with technical officers (more details on the events are on our website www.greatercambridge.org.uk):

Please note that whilst responses from private individuals will be anonymised, responses from public individuals and bodies e.g. Parish Councils will be published.
